Your journey in the cloud

The world gathering of families of paralyzed children is organized by the Montessori Foundation for children with special needs since 2019.

We have organized gatherings at music, book and nature festivals. These gatherings have brought together between 200 and 400 families over the past 6 years.

They are a journey through time, every year, so that families of paralyzed children from all over the world can meet, exchange with kindness, about their culture and experience.

This annual weekend is an unforgettable moment that gives a different perspective on the disease.

We are the world's eyes on paralyzed children. Paralyzed children have so much empathy and kindness to bring to the world.

From dream to reality...

The team is 9 people.

The organizer, mother of a paralyzed child
4 coordinators and 2 cooks on site for the management
of the stay and the campfire dinner for the fire ceremony
with the Native Americans among their tribe.

A certified therapist for open air mindfulness activities.
Under the fir trees facing the majestic Lake Ontario, you
will learn new techniques to gently massage your child.
Compassion meditation is used with people suffering from
PTS Post Traumatic Stress, such as veterans or parents of
paralyzed children.

His technique is liberating and allows you to release your
grief.

A certified photographer for the photo shoot.

The children are photographed without their support
equipment such as a wheelchair. The results are stunning.
This shoot is militant. It allows you to give the world
another perspective on illness.
